I am a 7th semester undergraduate student studying informatics at Del Institute of Technology. I am very interested in Quality Assurance. I am detail-oriented, adaptable, and have problem-solving skills. I have experience in programming, manual and automation testing. Committed to continuous learning and growth in a dynamic environment.

EXPERIENCE

PHAT Jumaga Silaban

Operator SIPUHH

Jan 2022 - Jun 2024

- Data Management: ability to manage data, including field data collection, data input, data processing, and data analysis using software such as spreadsheets and databases.

- Administrative Skills: able to perform administrative tasks required in managing forest-related data and documentation.

IUI - Purnama Jaya Lestari

Operator SIPUHH

Jan 2022 - Jun 2024

- Data Management: ability to manage data, including field data collection, data input, data processing, and data analysis using software such as spreadsheets and databases.
- Technical Capabilities: understanding of the use of special software or applications used to manage forest data, as well as the ability to understand and utilize the latest technology in forest management.
- Administrative Skills: able to perform administrative tasks required in managing forest-related data and documentation.

Informatics Study Program Website

Front- End Developer

Jun 2022 - Des 2023

- Complete projects with good results using HTML, JavaScript, and CSS
- Communicate with team members and work together on completing projects
- Able to compile the documents needed in the project

Informatics Study Program Website

Quality Assurance

Jun 2022 - Des 2023

- Identify, document, and report software bugs or issues using bug tracking tools.
- Strong understanding of programming and scripting languages (Java).
- Experience with manual and automated testing tools like Selenium, Katalon.

Pintar Inovasi Bangsa

Quality Assurance Tester

Jun 2024 - August 2024

- Identify, document, and report software bugs or issues using bug tracking tools.
- Strong understanding of programming and scripting languages (Java, Python).
- Experience with manual and automated testing tools like Selenium, JIRA, Katalon, Qase.

EDUCATION LEVEL

Institut Teknologi Del - Laguboti

Aug 2021 - Jun 2025 (Expected)

Undergraduate in informatics Major - 3.0

SMA Budi Mulia PematangSiantar

Juni 2018 - Juni 2021

IPA

ORGANISATIONAL EXPERIENCE

Student Association

Okt 2022 - Okt 2024

organization treasurer

Tobamar / Toba Marathon

Sept 2023

Crew

KPU HIMASTI

Okt 2022 & Okt 2023

Treasurer

PROJECTS

- Clinic Website (2022) : Proficiency in programming languages such as Java
- prediction of common illnesses (2023) : Proficiency in programming languages such as Python
- Campus website design & Library website (2022) : redesign the appearance of the library website & campus website
- Decryption Encryption Application with AES Algorithm (2023) : Proficiency in programming languages such as Java
- Informatics Study Program Website (2023) : Proficiency in programming languages such as HTML, CSS, and JavaScript
- SPM Institut Teknologi Del (2024) : Designing a website for SPM IT Del.

SKILLS

- Languages : Indonesia (Native), English (Intermediate)
- Programming : PHP, Laravel, C, Bootstrap, JavaScript, React, Java, Python, Kotlin.
- Tools : Git, GitHub, Coda, Katalon Studio, Postman, Qase, Figma.
- Soft Skill : Agile, Scrum, Directing, Project Lead, Public Speaking, Communication, Problem Solving.
